

The diagram shows a vertical assembly. At the top is a blue rectangular block labeled 'B'. Below it is a gap. Then is another blue rectangular block labeled 'D'. Below that is another gap. At the bottom is a third blue rectangular block. Two spheres are positioned between the blocks. The top sphere is between the top blue block and the middle blue block. The bottom sphere is between the middle blue block and the bottom blue block. The distance between the centers of the two spheres is labeled 'C'.
