

A schematic diagram of a vertical assembly. It consists of two blue rectangular blocks, one at the top and one at the bottom. The top block contains a white square with a black triangle inside. The bottom block contains a white sphere with a black triangle inside. Two spheres are positioned between the blocks: one to the left of the top block and one to the right of the bottom block. Dimension lines indicate the width of the top block as B and the total height of the assembly as D .
