

A schematic diagram of a double-row ball bearing. The diagram shows a cross-section of the bearing with two rows of balls. The outer ring is represented by two blue horizontal bars at the top and bottom. The balls are shown as grey circles with black outlines. The inner ring is represented by two white horizontal bars at the top and bottom. The dimension B is indicated by a double-headed arrow at the top, representing the width of the bearing. The dimension D is indicated by a double-headed arrow on the left, representing the outer diameter of the bearing. The dimension C is indicated by a double-headed arrow on the right, representing the distance from the center of the balls to the outer edge of the bearing.
