

The technical drawing illustrates the geometry and sealing options of a roller bearing. The main view shows the outer diameter D , width B , and inner diameter d . Two cross-sectional views are provided: **ZZ** (Abgedeckt - unsealed) and **2RS** (Abgedichtet - sealed with two lips).

Brand: SONSTIGE EUROPA	
D (mm)	140
Dichtungsart	offen
Material	Wälzlagerstahl 100Cr6
B (mm)	24
d (mm)	90
Temperaturbereich	-25°C bis 120°C

The technical drawing illustrates a deep groove ball bearing. The top view shows the outer ring, inner ring, balls, and cage. The bottom view shows the same components from the opposite side. Dimensions are indicated by arrows: D for the outer diameter, B for the width, and d for the inner diameter.

Brand: SONSTIGE EUROPA	
D (mm)	140
Dichtungsart	offen
Material	Wälzlagerstahl 100Cr6
B (mm)	24
d (mm)	90
Temperaturbereich	-25°C bis 120°C
