

The diagram shows a vertical assembly. At the top is a blue rectangular block labeled 'B'. Below it is a gap. Below the gap is another blue rectangular block labeled 'D'. Between the two blue blocks are two spheres, each labeled 'C'. The spheres are positioned such that they appear to be in contact with the blue blocks and each other. Dimension lines are used to indicate the width of the top block 'B' and the height of the bottom block 'D'.
